## Page: 1 SAFETY DATA SHEET Revision nr:1 Issuing date: 01/10/2010 Supersedes: **UNLEADED 95**

#### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Commercial Product Name **UNLEADED 95** Chemical name of the substance **Unleaded Gasoline** 

Specific use(s) Fuel

Company Topaz Energy

Topaz House Beech Hill Clonskeagh

-Dublin 4, Ireland Tel.:+353 1 202 8888 Fax:+353 1 203 9888

E-mail:safetydatasheets@topazenergy.ie

+353 1 808 8232 Emergency telephone number

#### 2. HAZARDS IDENTIFICATION

Classification

T: Toxic

N: Dangerous for the environment

67/548/EEC.

F+: Extremely flammable

Most important hazards : R12 - Extremely flammable.

R38 - Irritating to skin. R45 - May cause cancer.

R46 - May cause heritable genetic damage.

R51/53 - Toxic to aquatic organisms, may cause long-term adverse effects in

The product is classified as dangerous in accordance with Directive

the aquatic environment.

R63 - Possible risk of harm to the unborn child. R65 - Harmful: may cause lung damage if swallowed. R67 - Vapours may cause drowsiness and dizziness.

**CLP-Classification** The product is classified as dangerous in accordance with Directive

1272/2008/EEC.

Signal word Danger

**CLP Hazard statements** H226 - Flammable liquid and vapour.

H304 - May be fatal if swallowed and enters airways.

H315 - Causes skin irritation.

H336 - May cause drowsiness or dizziness.

H411 - Toxic to aquatic life with long lasting effects.

H340 - May cause genetic defects

H350 - May cause cancer

H361d - Suspected of damaging the unborn child.

## 

Main symptoms

Inhalation : May cause irritation of respiratory tract.

Vapours may cause drowsiness and dizziness.

Inhalation of high vapour concentrations can cause CNS-depression and

narcosis.

Inhalation of high vapour concentrations may cause symptoms like

headache, dizziness, tiredness, nausea and vomiting.

Skin contact : Irritating to skin.

Eye contact : May cause eye irritation.

Repeated or prolonged exposure: Inflammation, Redness, Ulceration

Ingestion : Ingestion may cause gastrointestinal irritation, nausea, vomiting and

diarrhoea.

Smallest quantities reaching the lungs through swallowing or subsequent

vomiting may result in lung oedema or pneumonia.

Repeated and prolonged exposure to solvents may cause brain and nervous

system damage.

Environmental properties : Toxic to aquatic organisms, may cause long-term adverse effects in the

aquatic environment.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance name	Values (%)	CAS no	EC No	EC Index	Symbol(s):	R-phrase(s)

Full text of R-phrases: See section 16.

Substance name	Values (%)	CAS no	EC No	EC Index	CLP pictograms	CLP Hazard statement s
Gasoline	<= 100	86290-81-5	289-220-8	649-378-00-4	GHS02,GHS08,GHS09	H224,H304, H315,H336, H340,H350, H411,H361f d

Full text of the H-statements: See section 16.

#### 4. FIRST AID MEASURES

First aid measures

Inhalation : May cause irritation of respiratory tract.- Vapours may cause drowsiness and

dizziness.- Inhalation of high vapour concentrations can cause CNSdepression and narcosis.- Inhalation of high vapour concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting.

Move to fresh air. Keep at rest.

In case of shortness of breath, give oxygen.

Obtain medical attention.

## Page: 3 SAFETY DATA SHEET Revision nr:1 Issuing date: 01/10/2010 Supersedes: **UNLEADED 95**

Skin contact Irritating to skin.

Take off contaminated clothing and shoes immediately.

After contact with skin, wash immediately with plenty of soap and water.

If skin irritation persists, call a physician.

May cause eye irritation.- Repeated or prolonged exposure: Inflammation, Eye contact

Redness, Ulceration

Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes.

If pain persists, call a physician.

Ingestion may cause gastrointestinal irritation, nausea, vomiting and Ingestion

> diarrhoea.- Smallest quantities reaching the lungs through swallowing or subsequent vomiting may result in lung oedema or pneumonia.- Repeated and prolonged exposure to solvents may cause brain and nervous system

damage.

Call a physician immediately. Do NOT induce vomiting.

Rinse mouth.

Drink plenty of water.

Additional advice Show this safety data sheet to the doctor in attendance.

Treat symptomatically.

Never give anything by mouth to an unconscious person.

#### 5. FIRE-FIGHTING MEASURES

Fire Hazard Extremely flammable

Suitable extinguishing media Use dry chemical, CO2, water spray or alcohol resistant foam.

High volume water jet

Extinguishing media which shall not be used:

for safety reasons

Specific hazards

The pressure in sealed containers can increase under the influence of

Fire or intense heat may cause violent rupture of packages.

In the event of fire, cool tanks with water spray. Vapours may form explosive mixtures with air.

Vapours are heavier than air and may spread along floors.

Flash back possible over considerable distance. Burning produces noxious and toxic fumes.

In case of fire hazardous decomposition products may be produced such

as:

Carbon oxides

Fire residues and contaminated fire extinguishing water must be disposed

of in accordance with local regulations.

In the event of fire, wear self-contained breathing apparatus. Special protective equipment for fire-fighters:

Wear personal protective equipment.

#### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions Evacuate personnel to safe areas.

Keep people away from and upwind of spill/leak.

Avoid contact with skin and eyes. Do not breathe vapours or spray mist. Wear personal protective equipment.

See also section 8.

Environmental precautions Prevent product from entering drains.

## 

Methods for cleaning up

: Ensure adequate ventilation, especially in confined areas.

Remove all sources of ignition. Do not use sparking tools.

Do not smoke. Dam up.

Prevent further leakage or spillage if safe to do so. Hose down gases, fumes and/or dust with water.

Soak up with inert absorbent material.

Sweep up and shovel into suitable containers for disposal.

Dispose of in accordance with local regulations.

Collect and dispose of waste product at an authorised disposal facility.

After cleaning, flush away traces with water.

Local authorities should be advised if significant spillages cannot be

contained.

#### 7. HANDLING AND STORAGE

Storage : Keep containers tightly closed in a dry, cool and well-ventilated place.

Store in original container.

Keep in a bunded area.

Keep away from open flames, hot surfaces and sources of ignition.

Keep away from food, drink and animal feedingstuffs.

Do not store near or with any of the incompatible materials listed in section

10.

Regularly check for damage to packaging

Handling : Take necessary action to avoid static electricity discharge (which might

cause ignition of organic vapours).

Ensure all equipment is electrically grounded before beginning transfer

operations.

Do not use pressure to empty drums.

Do not smoke.

Avoid contact with skin, eyes and clothing. Do not breathe vapours or spray mist. Wear personal protective equipment.

See also section 8.

Ensure adequate ventilation. When using do not eat or drink.

Do not pierce or burn, even after use. Do not spray on a naked flame or any

incandescent material.

Do not burn, or use a cutting torch on, the empty drum.

Packaging material : glass, metal containers, Plastic jerrican

Specific use(s) : Fuel

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal protective equipment

Respiratory protection : In the case of vapour formation use a respirator with filter model A.

(type A1/A2/A3; EN 141/136/140/137)

Hand protection : PVC disposable gloves

EN374

The selection of specific gloves for a specific application and time of use in a working area, should also take into account other factors on the working space, such as (but not limited to): other chemicals that are possibly used, physical requirements (protection against cutting/drilling, skill, thermal protection), and the instructions/specification of the supplier of gloves.

Eye protection : Safety glasses with side-shields conforming to EN166

#### SAFETY DATA SHEET

### Revision nr:1 Issuing date: 01/10/2010

Page: 5

### **UNLEADED 95**

Supersedes:

Goggles

Skin and body protection chemical-resistant overalls

Chemical resistant apron

Handle in accordance with good industrial hygiene and safety practice. Hygiene measures

Wash hands before breaks and immediately after handling the product.

Remove and wash contaminated clothing before re-use.

Eye wash bottle with pure water

Provide sufficient air exchange and/or exhaust in work rooms. Engineering measures

Environmental exposure controls Do not flush into surface water or sanitary sewer system.

Exposure limit(s)

Gasoline (86290-81-5) Component

TLV-TWA (ppm) 300 (PT, ES)

mist: 5 (BE, GB, NL, FR, ES, FI, DK, NO); 1 (SE); 250 (UT4, Kraftstoff, DE); 400 (CZ) TLV-TWA (mg/m³)

TLV-STEL (ppm) 500 (PT)

TLV-STEL (mg/m³) mist: 10 (BE, GB); 3 (SE); 1000 (CZ)

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance** 

Colour Colourless to pale coloured

Odour hydrocarbon-like

pН Not applicable Boiling point/boiling range 25 - 215 °C Melting point/range no data available

Flash point < -40°C Autoignition temperature 445 °C

Explosive properties L.E.L 1,3 vol % / U.E.L 7,6 vol %

no data available Oxidizing properties no data available Evaporation rate 450 - 1000 (20°C) hPa Vapour pressure Vapour density no data available

Water solubility slight

Viscosity No data available Relative density 0.725 - 0.775 @ 15°C

Partition coefficient: n-octanol/water > 3

#### 10. STABILITY AND REACTIVITY

Stable under normal conditions. Stability

Hazardous decomposition products Burning produces noxious and toxic fumes.

In case of fire hazardous decomposition products may be produced such as:

Carbon oxides

Incompatible materials Oxidizing agents

Conditions to avoid Heat, flames and sparks.

# SAFETY DATA SHEET Page: 6 Revision nr: 1 Issuing date: 01/10/2010 UNLEADED 95 Supersedes:

#### 11. TOXICOLOGICAL INFORMATION

**General Information** 

Acute toxicity

Component : Gasoline (86290-81-5)

 LD50/oral/rat
 : > 5000 mg/kg

 LD50/dermal/rabbit
 : > 2000 mg/kg

 LC50/inhalation/4h/rat
 : 5,2 mg/l/4h

Inhalation : May cause irritation of respiratory tract.

Vapours may cause drowsiness and dizziness.

Inhalation of high vapour concentrations can cause CNS-depression and

narcosis.

Inhalation of high vapour concentrations may cause symptoms like

headache, dizziness, tiredness, nausea and vomiting.

Skin contact : Irritating to skin.

Eye contact : May cause eye irritation.

Repeated or prolonged exposure: Inflammation, Redness, Ulceration

Ingestion : Ingestion may cause gastrointestinal irritation, nausea, vomiting and

diarrhoea.

Smallest quantities reaching the lungs through swallowing or subsequent

vomiting may result in lung oedema or pneumonia.

Repeated and prolonged exposure to solvents may cause brain and nervous

system damage.

Chronic toxicity

Chronic toxicity : Harmful: danger of serious damage to health by prolonged exposure through

inhalation, in contact with skin and if swallowed.

Chronic exposure may cause headache, confusion, tremors, memory loss,

slurred speech and anorexia.

Ingestion causes damage of central nervous system, liver, kidneys, blood

and bone marrow.

Repeated exposure may cause skin dryness or cracking.

Haemopathic effects caused by benzene and all products in which it is

contained.

Changes in the blood count

Leukaemia

Sensitisation : No sensitization responses were observed.

carcinogenic effects : May cause cancer.

Mutagenicity : May cause heritable genetic damage.

Reproductive toxicity : Possible risk of harm to the unborn child.

#### 12. ECOLOGICAL INFORMATION

Ecotoxicity effects : Toxic to aquatic organisms, may cause long-term adverse effects in the

aquatic environment.

Component: Gasoline (86290-81-5)LC50/96h/fish: 82 mg/l ( Cyprinodon variegatus )

IC50/72h/algae : 3,3 mg/l

## SAFETY DATA SHEET

#### **UNLEADED 95**

Page: 7
Revision nr: 1
Issuing date:
01/10/2010
Supersedes:

Mobility : Irritating to respiratory system and skin.

Persistence and degradability : No data available

Bioaccumulation : Bioaccumulation is unlikely.

Partition coefficient: n-octanol/water : > 3

Further information : Do not flush into surface water or sanitary sewer system.

Dispose of as hazardous waste in compliance with local and national

regulations.

#### 13. DISPOSAL CONSIDERATIONS

Waste from residues / unused products : Where possible recycling is preferred to disposal or incineration.

Do not burn, or use a cutting torch on, the empty drum.

Do not flush into surface water or sanitary sewer system.

Dispose of in accordance with local regulations.

Empty containers should be transported/delivered using a registered

waste carrier to local recyclers for disposal.

Additional ecological information

Codes of waste (2001/573/EC, 75/442/EEC,

91/689/EEC)

The following Waste Codes are only suggestions:

13 07 02\*

Waste codes should be assigned by the user based on the application

for which the product was used.

#### 14. TRANSPORT INFORMATION

ADR danger labels

ADR/RID

Proper shipping name : Gasoline UN-No : 1203 Class : 3 Packing group : II

#### **ADNR**

**IMDG** 

Proper shipping name : Gasoline UN-No : 1203 Class : 3 Packing group : II

EmS : F-E, S-E IMDG Limited Quantities : 1 L

ICAO/IATA

Proper shipping name : Gasoline UN-No : 1203 Class : 3

# SAFETY DATA SHEET Page: 8 Revision nr: 1 Issuing date: 01/10/2010 UNLEADED 95 Supersedes:

UN packing group : II

Other information (transport) : Tunnel restriction code D/E

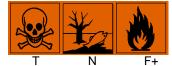

#### 15. REGULATORY INFORMATION

Classification : The product is classified as dangerous in accordance with Directive

67/548/EEC.

Commercial Product Name : UNLEADED 95

Chemical name of the substance : Unleaded Gasoline

Symbol(s):

T - Toxic

N - Dangerous for the environment

F+ - Extremely flammable

R-phrase(s) : R12 - Extremely flammable.

R38 - Irritating to skin. R45 - May cause cancer.

R46 - May cause heritable genetic damage.

R51/53 - Toxic to aquatic organisms, may cause long-term adverse effects in

the aquatic environment.

R63 - Possible risk of harm to the unborn child. R65 - Harmful: may cause lung damage if swallowed. R67 - Vapours may cause drowsiness and dizziness.

S-phrases : S23 - Do not breathe gas/fumes/vapour/spray.

S36 - Wear suitable protective clothing

S45 - In case of accident or if you feel unwell, seek medical advice

immediately (show the label where possible)

S53 - Avoid exposure - obtain special instructions before use.

S61 - Avoid release to the environment. Refer to special instructions/Safery

data sheets.

S62 - If swallowed, do not induce vomiting: seek medical advice immediately

and show this container or label.

Extra phrases : Restricted to professional users.

CLP-Classification : The product is classified as dangerous in accordance with Directive

1272/2008/EEC.

CLP pictograms :

Signal word : Danger

CLP Hazard statements : H226 - Flammable liquid and vapour.

H304 - May be fatal if swallowed and enters airways.

H315 - Causes skin irritation.

H336 - May cause drowsiness or dizziness.

H411 - Toxic to aquatic life with long lasting effects.

H340 - May cause genetic defects

H350 - May cause cancer

## SAFETY DATA SHEET Page: 9 Revision nr: 1 Issuing date: 01/10/2010 Supersedes:

H361d - Suspected of damaging the unborn child.

CLP Precautionary statements : P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

P273 - Avoid release to the environment

P280 - Wear protective gloves/protective clothing/eye protection/face

protection.

P201 - Obtain special instructions before use

P312 - Call a POISON CENTER/doctor/physician if you feel unwell

P405 - Store locked up

Contains : Gasoline

Extra phrases : Restricted to professional users.

WGK : 3

#### 16. OTHER INFORMATION

Text of R phrases mentioned in Section 3 : R12 -Extremely flammable.

R38 -Irritating to skin. R45 -May cause cancer.

R46 -May cause heritable genetic damage.

R51/53 -Toxic to aquatic organisms, may cause long-term

adverse effects in the aquatic environment.

R62 -Possible risk of impaired fertility.

R63 -Possible risk of harm to the unborn child.

R65 -Harmful: may cause lung damage if swallowed.

H-statements components : H224 -Extremely flammable liquid and vapour.

H304 -May be fatal if swallowed and enters airways.

R67 -Vapours may cause drowsiness and dizziness.

H315 -Causes skin irritation.

H336 -May cause drowsiness or dizziness.

H340 -May cause genetic defects

H350 -May cause cancer

H361fd -Suspected of damaging fertility. Suspected of

damaging the unborn child.

H411 -Toxic to aquatic life with long lasting effects.
